

PRATIK RAUT

Full Stack Software Engineer | AI/GenAI | Backend Systems

✉ pratik.raut9115@gmail.com ☎ +91 9111502449 📍 Ujjain, Madhya Pradesh, India 🔗 LinkedIn 🐙 Github
🔗 Portfolio 🖥 dev.to

📄 Professional Summary

Full Stack Software Engineer with 3.8 years of professional experience building production-ready web applications, backend services, REST APIs, and business platforms. Hands-on across React.js, Next.js, TypeScript, Node.js, Express.js, Python, FastAPI, PostgreSQL, MongoDB, Redis, Kafka, WebSockets, Docker, AWS, and CI/CD. Experienced in authentication/RBAC, database integration and optimization, real-time systems, event-driven workflows, and AI/GenAI application development using RAG, embeddings, LangChain, LangGraph, LLM APIs, AI agents, and local LLMs.

📁 Professional Experience

Career Break, Professional Development

Sep 2025 – Present

- Career break due to family circumstances while continuing professional development through hands-on full-stack and AI/GenAI projects.
- Strengthened React.js, Node.js, Python/FastAPI, PostgreSQL, Docker, AWS, LangChain, LangGraph, RAG, embeddings, LLM integrations, and AI agents.
- Built practical projects covering AI codebase assistance, RAG workflows, real-time systems, and AI-powered business applications; completed structured learning and certifications.

Software Engineer | Full Stack Development, Profilics Systems Pvt. Ltd.

Ujjain | Jan 2022 – Aug 2025

- Built and maintained full-stack business applications using React.js, Next.js, Node.js, Express.js, Python, PostgreSQL, and MongoDB across CRM, e-commerce, service/business, project/workflow, and document-management workflows.
- Developed and integrated REST APIs and backend services supporting application workflows; implemented validation, authentication, authorization, JWT, and RBAC.
- Developed reusable, responsive frontend components using React.js, TypeScript, Redux, Hooks, and Angular, integrating UI workflows with backend services.
- Worked with PostgreSQL, MongoDB, MySQL, Redis, and SQLite for schema design, CRUD operations, indexing, query optimization, caching, and application data management.
- Worked with Apache Kafka, RabbitMQ, and WebSockets for asynchronous processing, event-driven workflows, and real-time application features.
- Used AWS, Docker, Git, and CI/CD in development, deployment, maintenance, and production troubleshooting workflows.
- Contributed to scalable applications supporting enterprise business operations; collaborated with team members to understand requirements, develop features, debug issues, and deliver maintainable software.

🧠 Core Technical Skills

Languages — JavaScript, TypeScript, Python, SQL; supporting exposure: Go, Core Java

Frontend — React.js, Next.js, Angular, Redux, React Hooks, TypeScript, Tailwind CSS, HTML5/CSS3

Backend & APIs — Node.js, Express.js, FastAPI, Django, REST APIs, GraphQL, Swagger/OpenAPI, Prisma

Data — PostgreSQL, MongoDB, MySQL, Redis, SQLite; schema design, indexing, query optimization

Distributed / Realtime — Apache Kafka, RabbitMQ, WebSockets, Socket.io, event-driven architecture, microservices

AI / GenAI — RAG, embeddings, FAISS, LangChain, LangGraph, LLM APIs, AI agents, tool calling, Gemini, OpenAI-compatible APIs, Ollama

Cloud / DevOps — AWS, Docker, Git/GitHub, CI/CD, Nginx, Postman

Engineering — OOP, DSA, system design, authentication, JWT, RBAC, clean architecture, performance optimization

Selected Engineering Projects

CodeMind - AI Personal Codebase Assistant,

Python, FastAPI, LangChain, RAG, FAISS, Hugging Face Embeddings, Docker Model Runner

Built a local developer assistant for codebase Q&A, file operations, AI-assisted code application, and project generation; added language-aware chunking, relevance gating, multi-turn context, and local LLM execution.

Multi-Agent Research Analyst, LangGraph, Groq, Sanity/GROQ, Next.js, SSE

Built a multi-agent workflow for research, claim analysis, report writing, review, contradiction handling, and human approval, with explicit claim relationships and a review loop for unsupported content.

AI-Powered Sales & Customer CRM Platform, Next.js, React.js, Node.js, Express.js, PostgreSQL, Prisma, Redis, WebSockets

Developed a full-stack CRM for leads, contacts, sales workflows, authentication/RBAC, Redis caching, and real-time notifications; integrated REST APIs across frontend and backend services.

Realtime Collaboration Suite, React, Vite, Bun, Express, TypeScript, Supabase, LiveKit, Socket.io

Built a collaboration platform with multi-user video, screen sharing, file sharing, whiteboard synchronization, authentication, protected APIs, and persistent room data.

AI Log Anomaly Detection, Next.js, Node.js, Apache Kafka, Google Gemini, MongoDB, Grafana

Built a real-time log analysis pipeline using Kafka for event streaming, AI-assisted anomaly detection, MongoDB persistence, and monitoring dashboards.

Inventory & Order Management Service, Go, Kafka, PostgreSQL, Redis, gRPC

Built a microservice-based inventory and order platform with asynchronous Kafka communication, inventory reservation, optimistic locking, idempotent processing, PostgreSQL optimization, and Redis caching.

AI Customer Support Automation Platform, Python, Django REST Framework, Kafka, PostgreSQL, Redis, Docker, LLM

Built an AI-assisted support workflow for ticket processing and response generation using event-driven processing, caching, and LLM integration in a containerized backend.

AI-Powered Sales & Customer Relationship Management Platform,,

Angular, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, Redis, WebSockets, JWT/RBAC

Developed a full-stack CRM platform using Angular and TypeScript for managing leads, contacts, sales activities, and customer workflows; built REST APIs with Node.js, Express.js, PostgreSQL, and Prisma; implemented JWT authentication and RBAC, integrated Redis caching for frequently accessed data, and used WebSockets for real-time notifications and workflow updates.

Education

Bachelor's in Computer Science, Shri Guru Sandipani Institute of Technology & Science

Ujjain, India | Aug 2019 – Jun 2023

CGPA: 7.6/ 10

Certificates

Deep Agents with LangGraph — LangChain Academy

5-Day AI Agents Intensive Course with Google — Kaggle, Dec 2025

Fundamentals of MCP — Hugging Face, Sep 2026

Frontend Developer (React) — HackerRank, Aug 2026

Lab: Build a RAG Chatbot — Redis, Jul 2026

Foundation: Introduction to LangChain - Python — LangChain Academy, Jul 2026
